Why Our Program is Different Make Sure Your Clients Are Covered...

In order to limit your clients' liability in the ever-changing world of behavioral and mental healthcare, it is important to stay abreast of rules, laws, and regulations. We offer expertise in the field and award-winning Risk Management resources, backed by decades of experience underwriting and servicing Social Service accounts.

The Future of Healthcare

Do you have your providers covered for the integration of primary healthcare? Are you having difficulty finding coverage for primary health care and physicians in their programs? With the integration of Primary and Behavioral Healthcare increasing, the need for coverage for physicians is critical to providers and the brokers representing them. Whether your clients are contracting with or employing physicians, contact ISA today for solutions.

The Complex World of HIPAA

A misunderstanding of HIPAA legislation can lead to confusion about what information to share. Providers may be uncertain about their privacy responsibilities and respond with an overly guarded approach to disclosing information, more than necessary to ensure compliance with the Privacy Rule.
